What is this product?

Type

The product is a Sub-Fund of Eleva UCITS Fund (the "Fund"), a société anonyme under the laws of the Grand Duchy of Luxembourg and qualifying as an open-ended société d'investissement à capital variable under part I of the Law of 2010.

Term

The Sub-Fund was incorporated for an unlimited period and its termination must be decided by the Board of Directors.

Objectives

The Sub-Fund seeks to achieve superior long-term risk adjusted returns and capital growth by investing predominantly in European equities (i.e. European Economic Area, UK, Switzerland), which the Management Company considers having a positive contribution on social and/or environmental issues. The Sub-Fund is eligible to the French PEA (Plan d'Épargne en Actions).

The Sub-Fund promotes a combination of environmental, social and governance characteristics (ESG) and has a sustainability objective. It aims at investing in companies considered to have a positive impact on social and/or environmental issues. It is a product falling under Article 9 of SFDR which holds the SRI label in France and the Towards Sustainability Belgian label. The Sub-Fund systematically and simultaneously integrates binding ESG characteristics in its investment management process and intends to invest in companies having a positive contribution to social and/or environmental issues. More specifically, the Sub-fund will only invest in companies having a positive contribution through the products and/or services they sell. As such, the Sub-Fund only invests in sustainable investments in the meaning of art. 2(17) SFDR. The initial investment universe is predominantly made of all listed companies (all market capitalisations, all sectors) with their registered office in Europe (i.e. European Economic Area, UK, Switzerland) and may include non-European issuers belonging to the OECD. The Sub-Fund's investment process counts 4 steps (detailed in the precontractual document as per SFDR), the first 3 being based on non-financial criteria (step 1: strict exclusion, step 2: positive ESG screening, step 3: positive contribution assessment and step 4: financial criteria). The Sub-Fund reduces its ESG investable universe compared to its initial investment universe by at least 30% (i.e. an elimination of the 30% worst issuers, weighted according to market capitalisation). The Sub-Fund defines a binding minimum ESG score, that each company in the Sub-Fund's portfolio must as a minimum reach. The minimum score is 60/100 and this ensures that at least 30% of the initial investment universe is excluded further to the screening under steps 1 and 2. If at some point in time, the threshold of 60/100 is not sufficient to ensure a 30% reduction of the investment universe, this minimum ESG score could be revised upwards.

The Sub-Fund may use FDIs (financial derivative instruments) such as index or sector futures, options on securities and potentially CFDs, for hedging or for efficient portfolio management purposes. This must not have the consequence of significantly or lastingly distorting the Sub-Fund's ESG policy.

The Sub-Fund is actively managed with reference to the Stoxx Europe 600 Net Return Benchmark. The Sub-Fund's holdings and the weightings of securities in the portfolio will consequently deviate from the composition of the relevant Benchmark. The relevant Benchmark is not consistent with the ESG factors taken into consideration by the Sub-Fund. The investment strategy can generate sectorial biases compared to the relevant Benchmark (overweights or underweights of some sectors).

Custodian: The Sub-Funds assets are held with HSBC Continental Europe, Luxembourg and are segregated from the assets of other sub-funds of the Company.

Further information and price availability: Further information about the Company (including the current Prospectus and most recent Annual Report) is available in English, and information about the Sub-Fund and other Share Classes (including the latest prices of shares and translated versions of this document), are available free of charge on www.elevacapital.com or by making a written request to the Management Company, 61 rue des Belles Feuilles, 75116, Paris, France or by emailing info@elevacapital.com.

Sale of shares in the Sub-Fund can be made on any business day.

The share class does not intend to distribute dividends. Any income arising from the Fund's investments is reinvested and reflected in the value of this share class.

Intended retail investor

The Sub-Fund is suitable for investors seeking capital growth over at least a 5-year investment period and who wish to gain exposure to targeted equities and similar investments of the type described in the investment policy described above.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 5 years.
The actual risk can vary significantly if you cash in at the early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity to pay you.

Additional risks: Market liquidity Risk, Economic Dislocation Risk, Smaller Company Risk, ESG Risk Factors.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If Eleva Capital S.A.S is not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period : 5 years			
Investment EUR10,000			
Scenarios		If you exit after 1 year	If you exit after 5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.

Favourable`	What you might get back after costs	13,180 EUR	14,790 EUR
	Average return each year	31.8%	8.1%

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment between 12/2021 and 04/2025.

The moderate scenario occurred for an investment between 06/2018 and 06/2023.

The favourable scenario occurred for an investment between 10/2016 and 10/2021.

What happens if Eleva Capital S.A.S is unable to pay out?

The assets and liabilities of this product are segregated from those of Eleva Capital S.A.S. There is no cross- liability between these entities, and the product would not be liable if Eleva Capital S.A.S. or any delegated service provider were to fail or default. This product does not participate in an investor compensation scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

- We have assumed:
- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
 - EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs EUR	469 EUR	1,676 EUR
Annual cost impact (*)	4.7%	3.2% per year

(*)This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.0% before costs and 2.8% after costs.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	2.0% of the amount you pay in when entering this investment. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	201 EUR
Exit costs	We do not charge an exit fee.	0 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	2.4% of the value of your investment per year. This is an estimate based on actual costs over the last year.	243 EUR
Transaction costs	0.2% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	24 EUR
Incidental costs taken under specific conditions		
Performance fees	The impact of the performance fee. We take these from your investment if the product outperforms its benchmark, the STOXX Europe 600 Net Return Index, with an underperformance compensation mechanism over 5 rolling years.	0 EUR

How long should I hold it and can I take money out early?

Recommended holding period: 5 years.

The recommended holding period is based on our assessment of the risk and reward characteristics and costs of the product. Order Schedule: Redemption and subscription requests must be received in proper form by the Sub-Fund's Administrator no later than 12:00 p.m. (Luxembourg time) on the relevant Valuation Day on which the Shareholder is seeking to be redeemed or issued shares. The Sub-Fund's Administrator will normally send a contract note confirming the transaction by facsimile, email or post to the applicant as soon as reasonably practicable and normally within three Business Days following the relevant Valuation Day. Disinvesting before the end of the recommended holding period may have a negative consequence on your investment.
