document.

This PRIIP is authorised in Luxembourg.

Eleva Capital S.A.S is authorised in France and regulated by Autorité des Marchés Financiers (AMF).

Date of production: 24 June 2025

What is this product?

Type

The product is a Sub-Fund of Eleva UCITS Fund (the "Fund"), a société anonyme under the laws of the Grand Duchy of Luxembourg and qualifying as an open-ended société d'investissement à capital variable under part I of the Law of 2010.

Term

The Sub-Fund was incorporated for an unlimited period and its termination must be decided by the Board of Directors.

Objectives

The Sub-Fund seeks to achieve a positive performance (net of fees) over the medium term by investing primarily in the international fixed income and currency markets. The Sub-Fund applies an absolute return approach, through an active investment strategy.

The Sub-Fund promotes a combination of ESG characteristics, integrates binding ESG criteria in its investment strategy and falls under Article 8 of SFDR. The main non-financial objective of the Sub-Fund is to invest in companies, sovereign, quasi-sovereign and supra-national issuers with good ESG practices (i.e. best in universe) or that are on an improving path regarding ESG practices (i.e. best efforts) while excluding companies that would not have a minimum absolute ESG score. The methodology used for ESG selectivity is the following: the weighted average ESG score of the ELEVA Global Bonds Opportunities Fund long pocket has to be higher (i.e. better) than the average ESG score of its initial investment universe.

The Management Company will seek to achieve the investment objective through a combination of a global long/short duration positioning along with relative value strategies. The Sub-Fund will invest principally in bonds, currencies and other debt securities of private, public and semi-public issuers worldwide based, without any restrictions to respective sector exposures. The bonds and other debt securities, to which the Sub-Fund will be exposed, may be of a non-speculative ("Investment Grade") or a speculative ("High Yield" or "Non-Rated") nature, and be of various geographical locations within the limits described below and in the prospectus. They may have fixed or variable rates and include, without limitation, index-linked, subordinated, distressed, callable and covered debt securities. Subordinated debt securities may also be perpetual ("Hybrids" for non-financial issues). The Sub-Fund may invest in and/or be exposed to other asset classes and in particular bonds issued by non-listed issuers. The minimum asset allocation in bonds and other debt securities (excluding non-funded FDIs) from public, semi-public and private entities issued in OECD countries will be 60% of the Sub-Fund's net asset value while the exposure to non-OECD countries will be limited to 30%. The Sub-Fund's maximal exposure to "High Yield" or "Non Rated" debt securities is limited to maximum 50% of its net asset value. The Sub-Fund may invest in listed and over-the-counter derivatives for the purposes of yield enhancement and hedging risks. Repurchase and reverse repurchase agreement transactions, total return swaps and other financial derivative instruments with similar characteristics may be used. Through the former FDIs (financial derivatives instruments), the Sub-Fund may be committed to leverage up to 1.000% of its net asset value. This means that the Sub-Fund may have additional commitments seeking exposure, hedging or arbitrages to financial markets up to ten times its net asset value, in absolute value. The Sub-Fund is actively managed with no reference to a benchmark.

Custodian: The Sub-Funds assets are held with HSBC Continental Europe, Luxembourg and are segregated from the assets of other sub-funds of the Company.

Further information and price availability: Further information about the Company (including the current Prospectus and most recent Annual Report) is available in English, and information about the Sub-Fund and other Share Classes (including the latest prices of shares and translated versions of this document), are available free of charge on www.elevacapital.com or by making a written request to the Management Company, 61 rue des Belles Feuilles, 75116, Paris, France or by emailing info@elevacapital.com.

Sale of shares in the Sub-Fund can be made on any business day.

The share class does not intend to distribute dividends. Any income arising from the Fund's investments is reinvested and reflected in the value of this share class.

Intended retail investor

The Sub-Fund is suitable for investors who are sophisticated enough to understand the specifics of the Sub-Fund (including the use of a high leverage) and is suitable for absolute return minded investors seeking capital growth over at least a 2-year investment period who wish to gain exposure to investments of the type described in the investment policy described above.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 2 years.
The actual risk can vary significantly if you cash in at the early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class.

This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the capacity to pay you.

Additional risks: Market liquidity Risk, Counterparty Risk, Credit Risk, Interest Rate Risk, Derivatives Risk, Emerging Market Risk, Inflation Risk, ESG Risk Factors.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If Eleva Capital S.A.S is not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period : 2 years			
Investment CHF10,000		If you exit after 1	
Scenarios		year	If you exit after 2 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	9,100 CHF	9,180 CHF
	Average return each year	-9.0%	-4.2%
Unfavourable	What you might get back after costs	9,270 CHF	9,240 CHF
	Average return each year	-7.3%	-3.9%
Moderate	What you might get back after costs	9,690 CHF	9,620 CHF
	Average return each year	-3.1%	-1.9%
Favourable`	What you might get back after costs	10,140 CHF	10,110 CHF
	Average return each year	1.4%	0.6%

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment between 10/2021 and 10/2023.

The moderate scenario occurred for an investment between 06/2015 and 06/2017.

The favourable scenario occurred for an investment between 02/2023 and 02/2025.

What happens if Eleva Capital S.A.S is unable to pay out?

The assets and liabilities of this product are segregated from those of Eleva Capital S.A.S. There is no cross- liability between these entities, and the product would not be liable if Eleva Capital S.A.S. or any delegated service provider were to fail or default. This product does not participate in an investor compensation scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

- We have assumed:
- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
 - CHF 10,000 is invested.

	If you exit after 1 year	If you exit after 2 years
Total costs CHF	584 CHF	863 CHF
Annual cost impact (*)	5.8%	4.4% per year

(*)This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.5% before costs and -1.9% after costs.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	3.0% of the amount you pay in when entering this investment. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	300 CHF
Exit costs	We do not charge an exit fee.	0 CHF
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.1% of the value of your investment per year. This is an estimate based on actual costs over the last year.	113 CHF
Transaction costs	1.0% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	96 CHF
Incidental costs taken under specific conditions		
Performance fees	The impact of the performance fee. 20.00% of any excess return the NAV achieves over the High Water Mark.	75 CHF

How long should I hold it and can I take money out early?

Recommended holding period: 2 years.

The recommended holding period is based on our assessment of the risk and reward characteristics and costs of the product. Order Schedule: Redemption and subscription requests must be received in proper form by the Sub-Fund's Administrator no later than 5:00 p.m. (Luxembourg time) on the Luxembourg bank Business Day prior to the relevant Valuation Day on which the Shareholder is seeking to be redeemed or issued shares. The Sub-Fund's Administrator will normally send a contract note confirming the transaction by facsimile, email or post to the applicant as soon as reasonably practicable and normally within three Business Days following the relevant Valuation Day. Disinvesting before the end of the recommended holding period may have a negative consequence on your investment.

How can I complain?

Any complaint may be referred to info@elevacapital.com or by regular mail at the following address: ELEVA Capital SAS Attn. RCCI 61 rue des Belles Feuilles 75116 Paris. ELEVA Capital will acknowledge receipt of the complaint within a maximum of ten working days from the date it was received unless a response has been issued to the client in the intervening period. Except in duly justified exceptional circumstances, a response will be issued to the client within two months of receipt of the complaint. In the event of an ongoing dispute, the client may contact the AMF Ombudsman at the following address: Autorité des marchés financiers Médiateur de l'AMF 17 Place de la Bourse 75082 PARIS CEDEX 02. The AMF mediation request form and the mediation charter are available on the AMF website:

- <https://www.amf-france.org/en/amf-ombudsman/how-mediation-works/mediation-charter>
- <https://www.amf-france.org/en/amf-ombudsman/mediation-file/request-mediation>

If you have a complaint about the person who advised you about this product, or who sold it to you please contact them for their complaints process.
