Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

ELEVA Euroland Selection Fund-Class H2 (EUR) acc.-LU1920212518

(ISIN:LU1920212518) Eleva Euroland Selection Fund (the 'Fund') is a sub-fund of Eleva UCITS Fund (the 'Company') Eleva Capital S.A.S. is the management company (the 'Management Company') to the Company.

Objectives and Investment Policy

• The Sub-Fund seeks to achieve superior long-term risk adjusted returns and capital growth by investing predominantly in European equities and equity related securities denominated primarily in Euro. The Sub-Fund is eligible to the French PEA (Plan d'Epargne en Actions).

• The Sub-Fund promotes a combination of environmental, social and governance characteristics and, while it does not have as its objective a sustainable investment, it will have a minimum proportion of 30% of sustainable investments. It is a product falling under Article 8 of SFDR which integrates binding ESG criteria in its investment management process.

• The main non-financial objective of the Sub-Fund is to invest in companies with good ESG practices (i.e. best in universe) or companies that are on an improving path regarding ESG practices (i.e. best efforts) while excluding companies that would not have a minimum absolute ESG score (40/100). The Sub-Fund also seeks to help companies to improve their ESG practices by engaging in dialogue with them on a regular basis and by sharing with them areas of improvement on specific ESG topics.

•From a broad investment universe predominantly made of all companies (all market capitalisations, all sectors) with their registered office in Europe (i.e. European Economic Area, UK, Switzerland), the Sub-Fund focuses on companies meeting the following financial criteria: (i) liquidity, measured through daily liquidity for each company; and (ii) minimum market cap is set at 5 billion euros unless that company has a strong balance sheet and a sufficient revenue growth. These criteria define the so-called initial investment universe (for the needs of the calculation of ESG selectivity) and is made of circa 800 companies. This initial investment universe may include non-European issuers belonging to the OECD.

• The Sub-Fund's investment process counts 3 steps (detailed in the precontractual document as per SFDR) being based on a combination of non-financial and financial criteria (step 1: definition of the investment universe, step 2: strict exclusion and step 3: fundamental analysis).

• The methodology used for ESG selectivity is the following: the weighted average ESG score of the Sub-Fund has to be significantly higher (i.e. better) than the average ESG score of its initial investment universe. This implies that the weighted average ESG score of the Sub-Fund may in no case be lower than the average ESG score of the initial investment universe after elimination of the 20% worst companies.

• The Sub-Fund may use FDIs (financial derivative instruments) on an ancillary basis, such as index or sector futures, options on securities and potentially CFDs, for hedging or for efficient portfolio management purposes. This must not have the consequence of significantly or lastingly distorting the Sub-Fund's ESG policy.

• The Sub-Fund is actively managed with reference to the Euro STOXX Index Net Return benchmark. The Sub-Fund's holdings and the weightings of securities in the portfolio will consequently deviate from the composition of the relevant Benchmark. The relevant Benchmark is not consistent with the ESG factors taken into consideration by the Sub-Fund.

• The Share Class does not intend to distribute dividends. Any income arising from the Sub-Funds investments is reinvested and reflected in the value of this Share Class.

• Sale of shares in the Sub-Fund can be made on any business day.

• Recommendation: this Sub-Fund may not be appropriate for investors who plan to withdraw their money within five years.

Risk and Reward Profile

Typically lower rewards ← → Typically higher rewards

Lower Risk ... Higher Risk

1	2	3	4	5	**6**	7

• The lowest category does not mean a risk free investment.

• The risk and reward profile shown is not guaranteed and may change over time.

• As this Fund has less than five years performance data available, it is based on simulated volatility and is not a guide to the future risk and reward category of the Fund.

• This share class is in category 6, since the share price has a high volatility therefore the risk of loss as well as the expected reward can be high.

The following risks may not be fully captured by the risk and reward indicator:

• **Counterparty Risk:** The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Sub-Fund to financial loss.

• **Currency Risk:** As the Sub-Fund invests in securities denominated in a number of different currencies, movements in exchange rates may, when not hedged, cause the value of the investments to increase or decrease.

• **Equity Risk:** The risk that investments depreciate because of stock market dynamics.

• **Market Risk:** The Sub-Fund's assets may decrease because of sovereign acts and political transformation, which may also influence free trade of currency. In addition, risks may arise because of restricted information possibilities in addition to less stringent supervision and control of certain markets. The performance of these markets may be subject to significant volatility.

• **ESG Risk Factors:**

- The lack of ESG criteria standards can make comparability between different portfolios using these criteria difficult.
- The ESG investment approaches available in the market can be subject to different interpretations.
- The performance of Sub-Funds employing ESG criteria may differ.
- Evolving ESG risks calculations makes ESG risk measurements difficult.

A complete description of risk factors is set out in the prospectus of the Company in the **'Risk Factors Annex'** .

Charges for this fund

One-off charges taken before or after you invest	
Entry charge	3.00%
Exit charge	N/A
The percentage indicated is the maximum that can be taken out of your capital before it is invested or before the income from your investment is distributed to you .	
Ongoing charges	0.96%
Charges taken from the fund under certain specific conditions	
Performance fee	15% of the outperformance versus the Euro STOXX Index Net Return EUR with a relative HWM over 5 rolling years.

A performance fee may be payable in case the Sub-Fund has overperformed the Relevant Benchmark but had a negative performance.

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures. In some cases you might pay less. Please refer to your financial advisor or the distributor for the actual charges.
As the Share Class has not had a full year of performance, the ongoing charges figure is an estimated figure.
This figure may vary from year to year. It excludes:
• Performance Fees.
• Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another undertaking for collective investment.
For more information on charges, please see the **'Fees and Expenses'** section of the Prospectus.

Past Performance

There is insufficient data to provide a useful indication of past performance to investors.

• Please note there is not a complete calendar year of performance available for this Share Class.

• The Fund launched on 10 July 2017. This class is yet to be launched.
